

## **Vision**

We want to achieve an increase in the value added in the region and the development and implementation of forward-looking business models to improve the locational quality of the port of Rostock, especially through stronger networking and cooperation with our clients.

## **Mission**

The port of Rostock is an important logistical maritime centre of the Baltic Sea, connecting economic regions of our hinterland with destinations especially in the Baltic Sea area but also with destinations around the world. ROSTOCK PORT offers all the necessary infrastructure and the general setting for terminal operators as well as logistics and industrial companies and provides the impetus for a sustained development of the location.

## **Corporate Policy**

Based on our vision and our mission our first priority is to fulfil the present and future wishes of our clients while adhering to plausible profitability criteria.

All our activities are planned and carried out in a manner minimising their environmental impact.

It is the duty of ROSTOCK PORT GmbH to continuously improve the performance of the management system, to avoid burdens on the environment and to comply with all legal obligations and requirements that are relevant for the environmental aspects of its activities.

A motivating work atmosphere for our employees that is conducive to efficiency is ensured by participation, especially by active involvement, delegation of responsibility and by constantly making sure that people have the necessary qualification.

The management system ensures the performance of services in high quality and with high efficiency. To implement its Corporate Policy, ROSTOCK PORT GmbH defines corporate objectives on the basis of its strategic targets to increase the quality and to reduce the environmental impact resulting from the services provided by the company.
